

Cresta Biwak hut regulations

Utilisation

The bivouac used to be on the Mischabeljoch and is functionally and simply furnished. The club members of the SAC Saas rebuilt it in 1997 in many hours of work at the new location. There are 6-8 beds with new mattresses, 1 dining table and a simply equipped kitchenette with a new gas oven. There is no running water. There is snow around the hut all year round, which can be melted. Please use the dry toilet below the hut for all your business! There is no electricity or telephone. Mobile phone reception is usually good.

Reservation: https://sac-saas.ch/cresta_biwak/

Taxis

Category A -> CHF 23.00

Members SAC / CAI / DAV

Rules for staying in the bivouac

- Visitors to the hut should treat the bivouac and its contents with care.
- Overnight stays and day visits should be entered in the hut book.
- Only visit our bivouac in good health.
- Appropriate caution should be taken when handling gas and fire.
- The hut should be left clean.
- Damage or defects should be reported to the hut manager immediately.
- Take your rubbish back down to the valley with you!

Information – The bivouac is not guarded.
